

# Who is helping **YOU** climb to the **top**?

 **ALTASORB**

**Glycolide**

**Lactide**

When your supply chain needs are critical, you shouldn't settle for anything but the best. **ALTASORB** represents the highest quality monomers going into the biomaterials market. Quality however is not just about the product - it is also about **SERVICE**. Altasorb monomers are produced domestically which means we can rapidly respond to your needs. In addition to Glycolide and Lactide, we also offer para-Dioxanone, e-Caprolactone, and TMC. Custom polymerizations as well as Medical Device, API, and Combination Product contract manufacturing are offered at our cGMP facility located near Greenville, South Carolina. A variety of equipment along with USP water and a Class 100,000 clean is available for your production needs.

Come by booth 504 or visit us at [www.altasorb.com](http://www.altasorb.com) to learn more.
