

**Choose Your
Partners Wisely**

Make Polysciences Yours

Polysciences partners with innovative companies to develop and manufactures novel monomers, polymers, and microparticles for medical device and drug delivery applications including:

Cardiovascular – Device Coatings & Biodegradable Microspheres for Controlled Release

Ophthalmic – Specialty Monomers, Polymeric Coatings & Additives

Bioassay Systems – Surface Active Microparticles & Hydrogel Polymers

Superior PhD Technical Support & Fully Integrated Services

LAB SCALE DEVELOPMENT

SCALE-UP SERVICES

cGMP MANUFACTURING

POLYSCIENCES' FULLY INTEGRATED OFFERING
